This ride will take us up the conventional back road to Crown King. This road has many obstacles and most have drive arounds. This ride should be considered a **Class 4 if you take on all the obstacles. Class 3 if you drive around them.**

[TRAIL RATING GUIDE](#) (click on link)

Class 3 – Medium: Four-wheel drive required in places due to terrain and loose traction for safe, easy travel. Low-range gears used occasionally. Tire load range C or greater required.

Class 4 – Hard: Four-wheel-drive required, usually in low range. Greatest amount of ground clearance is necessary due to moderate-sized rocks and obstacles. Jacks and winches advised just in case you have a problem. Tire load range C or greater required.
