TO BE FIRST IN LINE FOR OUR NEXT POTLUCK READ THE NEXT PAGE

Have you ever wondered where the heck you would come out if you dug a hole all the way through the earth? Well this month's puzzle will test your digging power. So that you end up in this "neck of the woods" I will give you a starting point on the other side of the earth. The only problem with starting there is it will be under water. Just use scuba gear with a really big air tank. Watch out for sharks.

So, let's get started. Begin digging at: S 33° 38.433 and E 067° 34.191

I know your having fun now. To be first in line, email me, (sgiamarvo1@msn.com), the exact location of where you came out at, such as Post office or Dog park, with coordinates. You should come out somewhere in Happy Trails. Be sure and dig straight.

Sam
