

Hello,

As you may know, there was another parking incident this last Thursday at the Town Center Jeep Staging Area similar to last year. I have been in contact with the Happy Trails Board of Directors President who will meet on Monday with our resort manager to discuss and resolve this and any further issues.

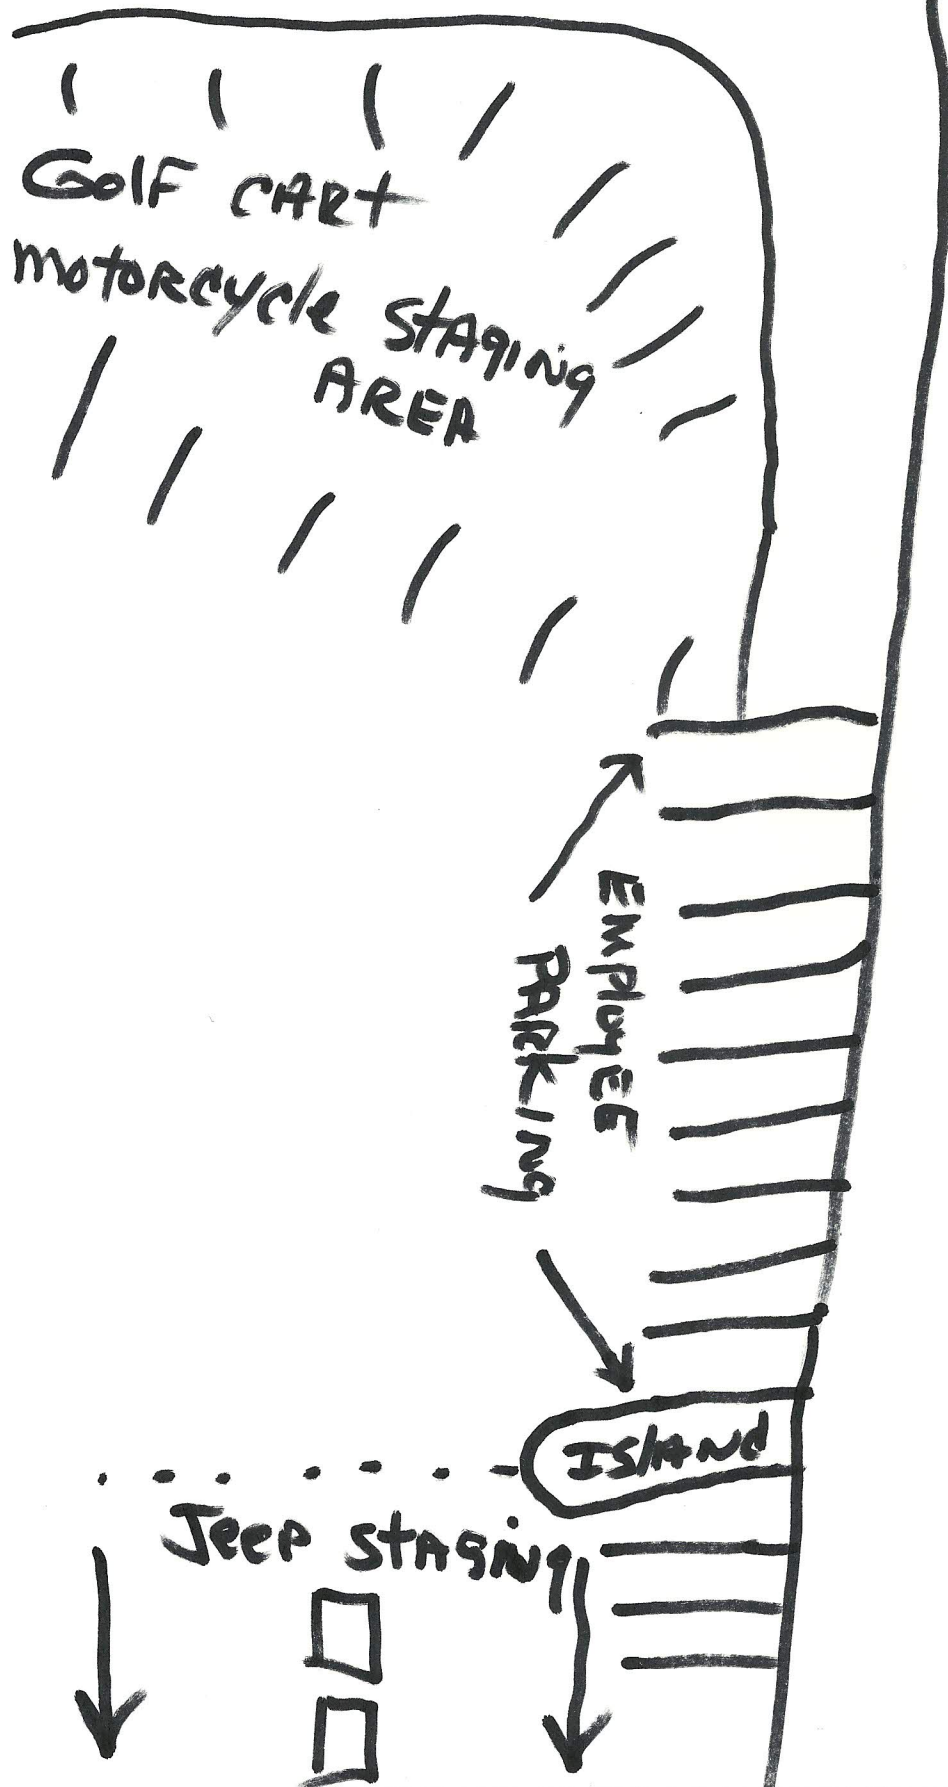

Attached is a drawing showing employee parking, golf cart parking, motorcycle staging, and our designated trail day staging area. Please be aware of traffic in that area during staging and be courteous to fellow residents and employees. Under no circumstances are we allowed to block residents or employees from using any parking slot.

Thank you for your consideration and cooperation in this matter.

Don Phelps-President

HAPPY TRAILS Blvd
